Bioenergy in Dialogue

4th Biomass for Swiss Energy Future Conference
5th September 2017 | Brugg

www.sccer-biosweet.ch
**The SCCER BIOSWEET**

The Swiss Competence Center for Bioenergy Research (SCCER BIOSWEET) is a consortia of partners from academia and private or public sector organizations. It focuses on research and development of biomass conversion processes to higher technology readiness levels with the ultimate goal of market implementation.

**Scope of the Conference**

- Foster the dialogue between bioenergy research and application
- Provide insight into SCCER BIOSWEET R&D activities, such as
  - Emission control for bioenergy production
  - Biomass for power-to-x applications
  - Integration of bioenergy technologies

**Marketplace**

The conference will feature marketplaces to enable the dialogue between researchers and application partners. It aims at fostering innovation through discussion and networking. Participants will have time to visit marketplaces on the following topics:

- Biomass to biogas
- Biogas and wood gas to biomethane
- Biomass to advanced heat and power
- Biomass to liquid fuels
- Biomass scenario and modelling

**Hosts**

Oliver Kröcher, Host
Head SCCER BIOSWEET
Head of Laboratory for Bioenergy and Catalysis at PSI

Markus Zelfang, Moderator
KTT Officer SCCER BIOSWEET
